

Reconsideration of the subject application as amended herein is respectfully requested.

The Applicant would like to thank the examiner for the courtesy extended during the interview of May 29, 2007. At the interview, various aspects of the invention were discussed. For example one example is an apparatus for playing a war game having a clothing article with a flexible display formed of a light emitting polymer, a light beam emitting gun for 'shooting' other participants and a sensor coupled to a master controller. The controller controls the images being formed on the display and the gun and receives signals from light sensor indicative of hits from other participants. Claim 62 describes the invention as discussed above, The remaining claims correspond to some of the claims previously submitted and describe other features of the invention.

It is respectfully submitted that none of the references cited by the examiner disclose this combination of elements. It is respectfully submitted that the subject application is now in condition for allowance

Respectfully submitted,
